

## Made by HYTEM

Hytem Factory located in Tianjin has been progressed to manufacture HYTEM EFA/Egg Farm Automation by manufacturing drawings and Quality Control prepared at Hytem Headquarters in Japan under Huang Factory Manager leadership, realizing **Made by Hytem**, as by the most of major Japanese manufacturers , such as Toyota, Honda, Hitachi.

### Part 1 Factory Operations

Located in Beichen Hitech park

## Machinery assembling Line

Cages, quality of which is critical for EFA durability, are all manufactured in Hytem Factory from 10% Aluminum galvanized wires under Hytem standards.

Cage Floor Automatic Welding Line

Cage Parts (Partition etc.) Robot Welding Line

Robot Welding Head

Automatic manufacturing is enhanced for the stable Quality Control, and minimizing the labor cost

Automatic Sheet metal Forming Line

Automatic Bending Line

The main sheet metal supplying factory(Roll Center) for Hytem Factory  
Metal One Tianjin Roll Center(Japanese company)

Quality Control is the important manufacturing process at Hytem Factory

Hytem Headquarters Engineering Team

Managing Director, Hytem Headquarters

## Part 2 Hytem Factory Skill Competition

To promote as smooth as possible Hytem Factory Operations, Huang Factory Manager held **Hytem Factory Skill Competition** last month encouraging the multiple working skill.

Wires setting Competition along the drawing and the zig

Fork lift driving and Assembling Competition

Cage mesh bending and QC(Quality Control) competition

Program inputting to Welding Robot & Drawing reading Competition

Packing, Delivery & Welding Competition

Gold, Silver and Copper Winners(Left to Right)
