

Egg Chandelier Osaka World Expo

Osaka World Expo started on last April 13 and will continue until coming October 13.

Earth Mart, a pavilions at the central part of Expo, is an imaginary market where you can experience the cycle of food and life.

The egg chandelier is presenting numbers of eggs which Japanese eat in his life, and an fried egg is showing volume of eggs eaten in the life.

The Earth Mart pavilion

To produce eggs, EFA/Egg Farm Automation is essential.

Hytem is committing to manufacture the best EFA in the market, targeting EFA Leader in Asia under following concept.

HYTEM

HYTEM Concept

HYTEM continuously strives to develop EFA(Egg Farm Automation) which delivers the maximum **Profit No.2** that no other farms can beat, and after sales services to support **Profit No.3**, EFA maintenance power

EFA 2 Groups Purchasing Policy

2 Groups Purchasing Policy is essential to earn money in egg farm operations

- 1** Purchase by price Purchase at lower prices, as low as possible, such items as materials which can be changed the next month.
- 2** Purchase by Performance & Quality / **Profit No.2** EFA (Egg Farm Automation) cannot be changed for more than 20 years once purchased.

Summary

Profit Increase by HYTEM through **PROFIT NO.2**

Conversion Rate: JPY100/USD

100,000 birds basis 20 years accumulation

HYTEM EFA can be used for 25 to 30 years when maintenances properly implemented, in which profit will increase further.

Crack Level Difference 2% Elevator G Series	Feed Conversion Difference 2% • Rate Free • P plus House Temperature kept higher by 4°C October - March	Less Elec Consumption for Manure Pre-Drying Eco Breeze	Durability Difference 5 years
USD 0.70 million USD 7.0 /b	USD 0.56 million USD 5.6 /b	USD 0.60 million USD 6.0 /b	USD 0.40 million USD 4.0 /b
2% less Crack By Crack USD 1.0/kg less Egg Mass 17.5kg/b.Y	Feed USD 0.4/kg Feed Conversion 2.0	Eco Breeze 0.4kWh/b.Y Air Pipe 2.6kWh/b.Y USD 0.15/kWh	Equipment USD 12/bird Standard durability 15 years basis

Profit Increase by HYTEM EFA

USD **2.2** million
USD **22.6** /bird

Profit No.2 is really working since Egg Demand will be solid even after 30 years ... which is the different circumstance from the investment for such as electronic industries
